

PATIENT DATA SECURITY

Partnerships in Today's Healthcare World:

As a Covered Entity, it is important to find Business Associates who are as committed to protecting patient health information as you are. BC Solutions understands that commitment and maintains the necessary certifications to meet most healthcare system requirements for protecting ePHI. It's just another way we streamline our processes so that we are ready to work for you.

HIPAA Compliance

Our Employees are fully trained in the current HIPAA Security Rule and retrained as rule changes are made.

- Compliance Testing
- Specific Training in computer and network security
- Compliance Reports available

Cyber/Privacy Insurance

We meet or exceed clients requirements for cyber insurance because our role as a Business Associate is to provide assurance that we have taken proper steps to implement the appropriate administrative, physical and technical safeguards.

BC Solutions

- Experts in Laboratory Compliance
- Committed to Patient Safety
- Leaders in Blood Bank Validation
